

RSA
Recruiting Student Athletes

EXAMPLE OF WHY YOU SHOULD CONSIDER WORKING WITH RSA SCOUTING:

(Testimonial from parent of a current College Golfer) --

"We met Tanya Olson at a junior golf tournament when my daughter, Allison was in 8th grade. She explained how important it is to work with someone to gain college recruiting exposure. We did not sign up for any college recruiting assistance at the time because we thought we could do it on our own. As we got into it, we realized how little we knew about the college recruiting process and felt overwhelmed and like we were falling behind very quickly.

We decided to work with Tanya just after Thanksgiving of Allison's sophomore year. Within just a few weeks, Tanya was able to get Allison's profile/resume built out complete with testimonials from her swing coach as well as high school coach. Additionally, she was able to get photos and swing videos added in time for sending out mailings and emails to coaches prior to the start of the spring season. Allison had dozens of immediate responses from coaches.

That was a great start, however we think where Tanya added even more value for us was her consulting and coaching about the recruiting process. She guided Allison on how to interact with coaches, what questions to ask, and what is important to coaches about prospects. This gave Allison a plan for each conversation she had with coaches.

Tanya's guidance on building out tournament schedules was critical for Allison to meet her goals. This included playing longer, more challenging courses, with much tougher competition. While some were a stretch and pushed the envelope, we trusted the process Tanya recommended for Allison and it paid off.

We were very happy to have engaged Tanya Olson for college golf recruiting. Even after Allison verbally committed to a school in February of her Junior year, Tanya continued to provide guidance and schedule consulting all the way through her signing date later that year in November. We would recommend Tanya to assist anyone with college golf recruiting in a heartbeat!"
